Webinar “Educational Robotics: Introduction of New Competence”

The event is held within the framework of the implementation of the Erasmus+ Capacity Building in Higher Education project

“Developing Future Educators’ Digital Competence Through Introducing Robotics into Curriculum (EduRob)”

Grant Agreement No. 101179514 (Task 5.4.1)

30 October 2026
DATE

15:00-18:00 (EET)
TIME

Online | Zoom
FORMAT

The aim of the event: to present the experience of introducing educational robotics as a new competence in teacher education; to share practical approaches to integrating robotics into educational programmes and courses; to demonstrate innovative teaching practices and learning activities involving educational robotics; to discuss the role of robotics in developing digital, technological, creative and project competences; to facilitate experience sharing among the Ukrainian EduRob partner institutions; and to discuss opportunities for further integration of educational robotics into teaching, methodological and project activities.

Target audience: academic and teaching staff, students, teachers, teacher educators, methodological staff and other professionals interested in educational robotics and digital competence development.

Languages of the Webinar: English, Ukrainian.

Participation in the event is free of charge.

Registration form:
